Φ6X40mm	Φ8X40mm	Φ8X20mm	Φ8X60mm

Installation instructions

Step 1

Use the No. 1 screw to install the pulley on the foot first, then use the No. 2 screw to fix the two feet on the bed frame, respectively, note (foot connected to the bed frame screws must be torqued), and then turn the bed frame upside down to open the second step.

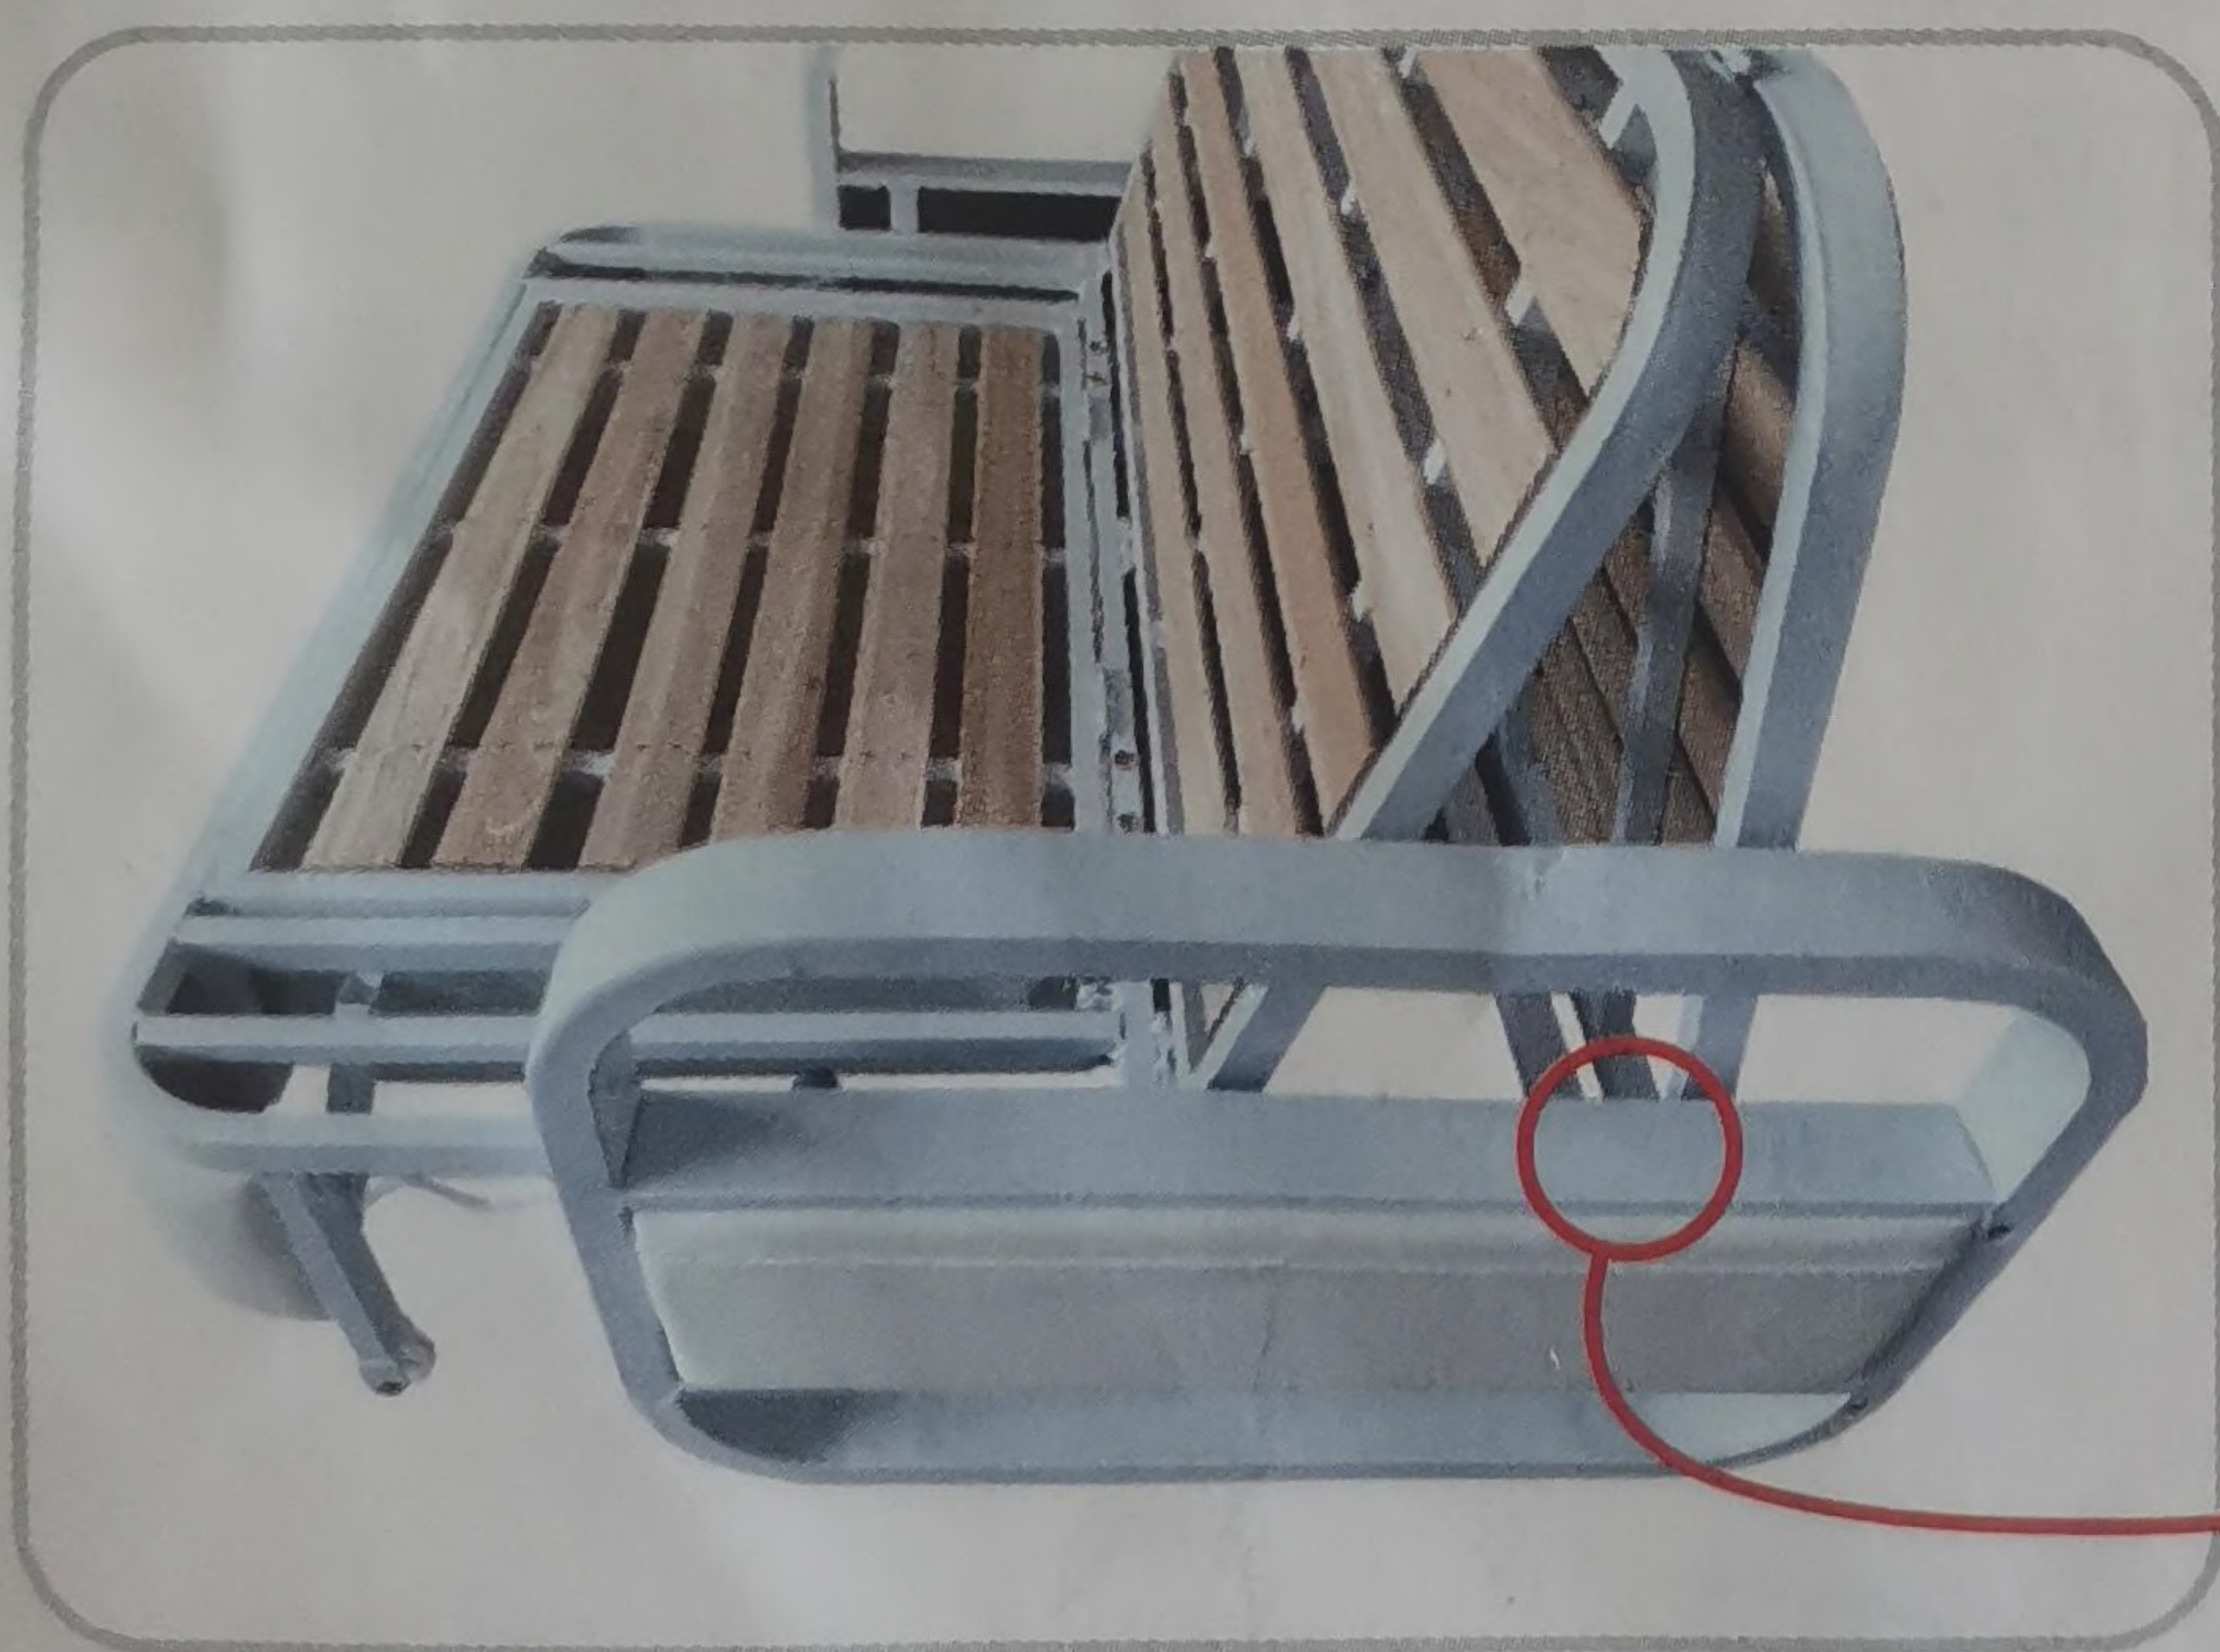

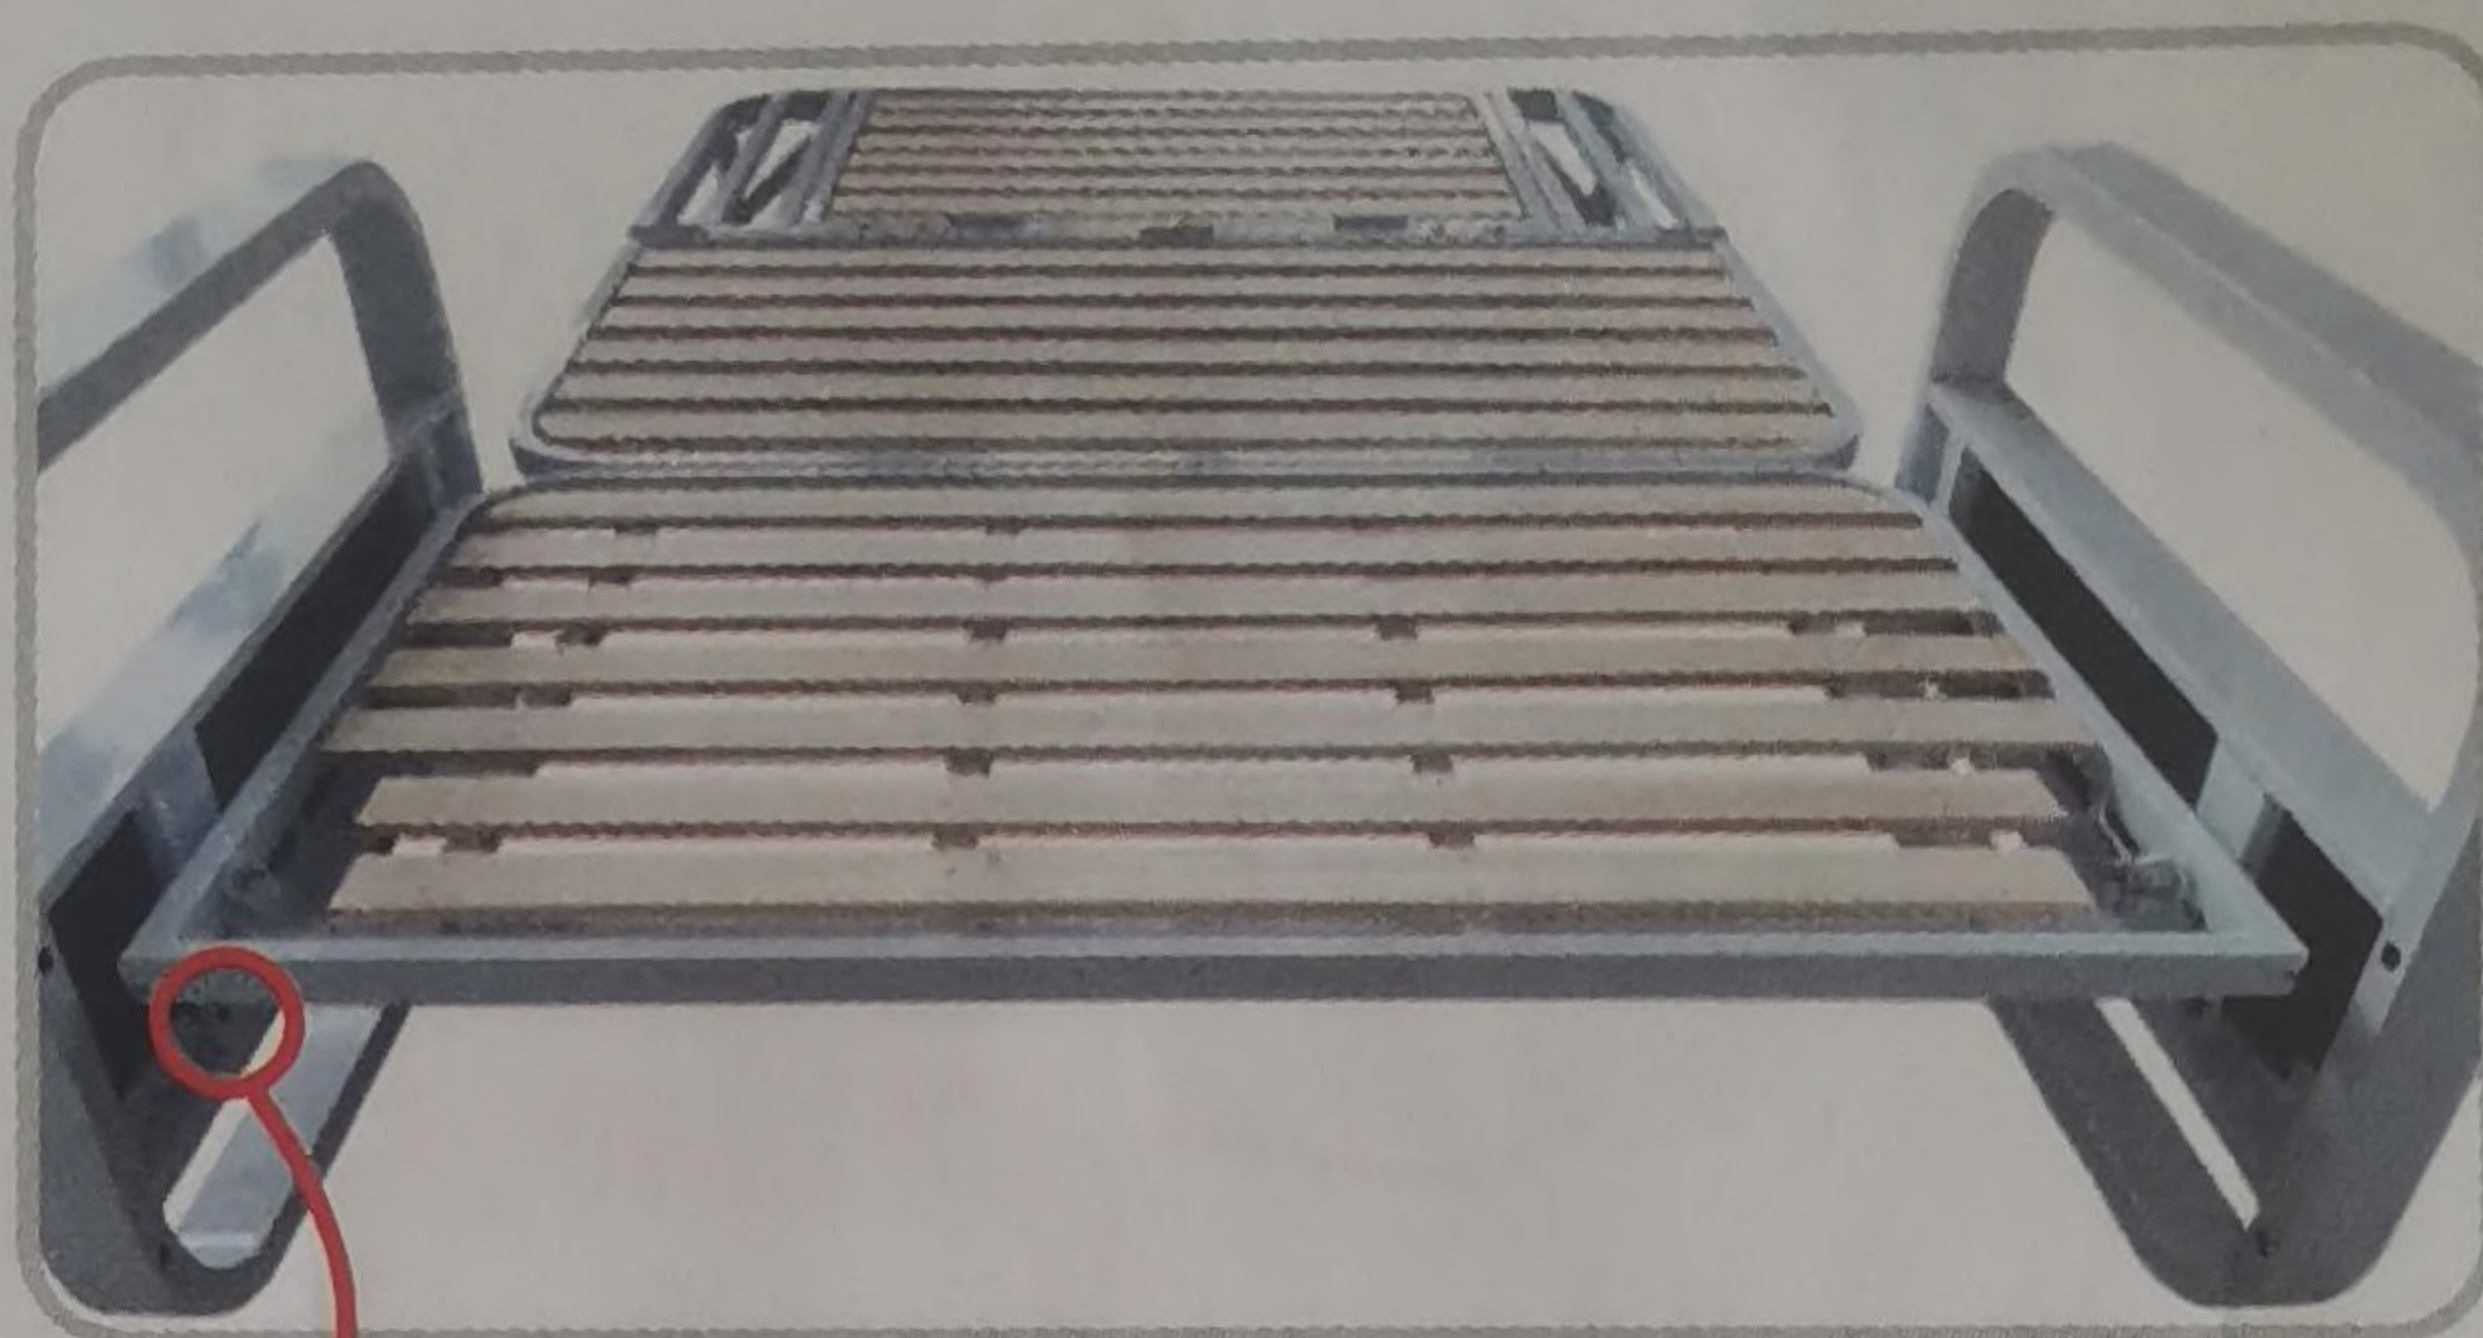

Step 2

Use No. 3 screws to connect the handrail and bed frame 1 to 1, and then push the bed back half, and then fix the bed frame and handrail 2 to 2 with screws.

Step 1

Left armrest

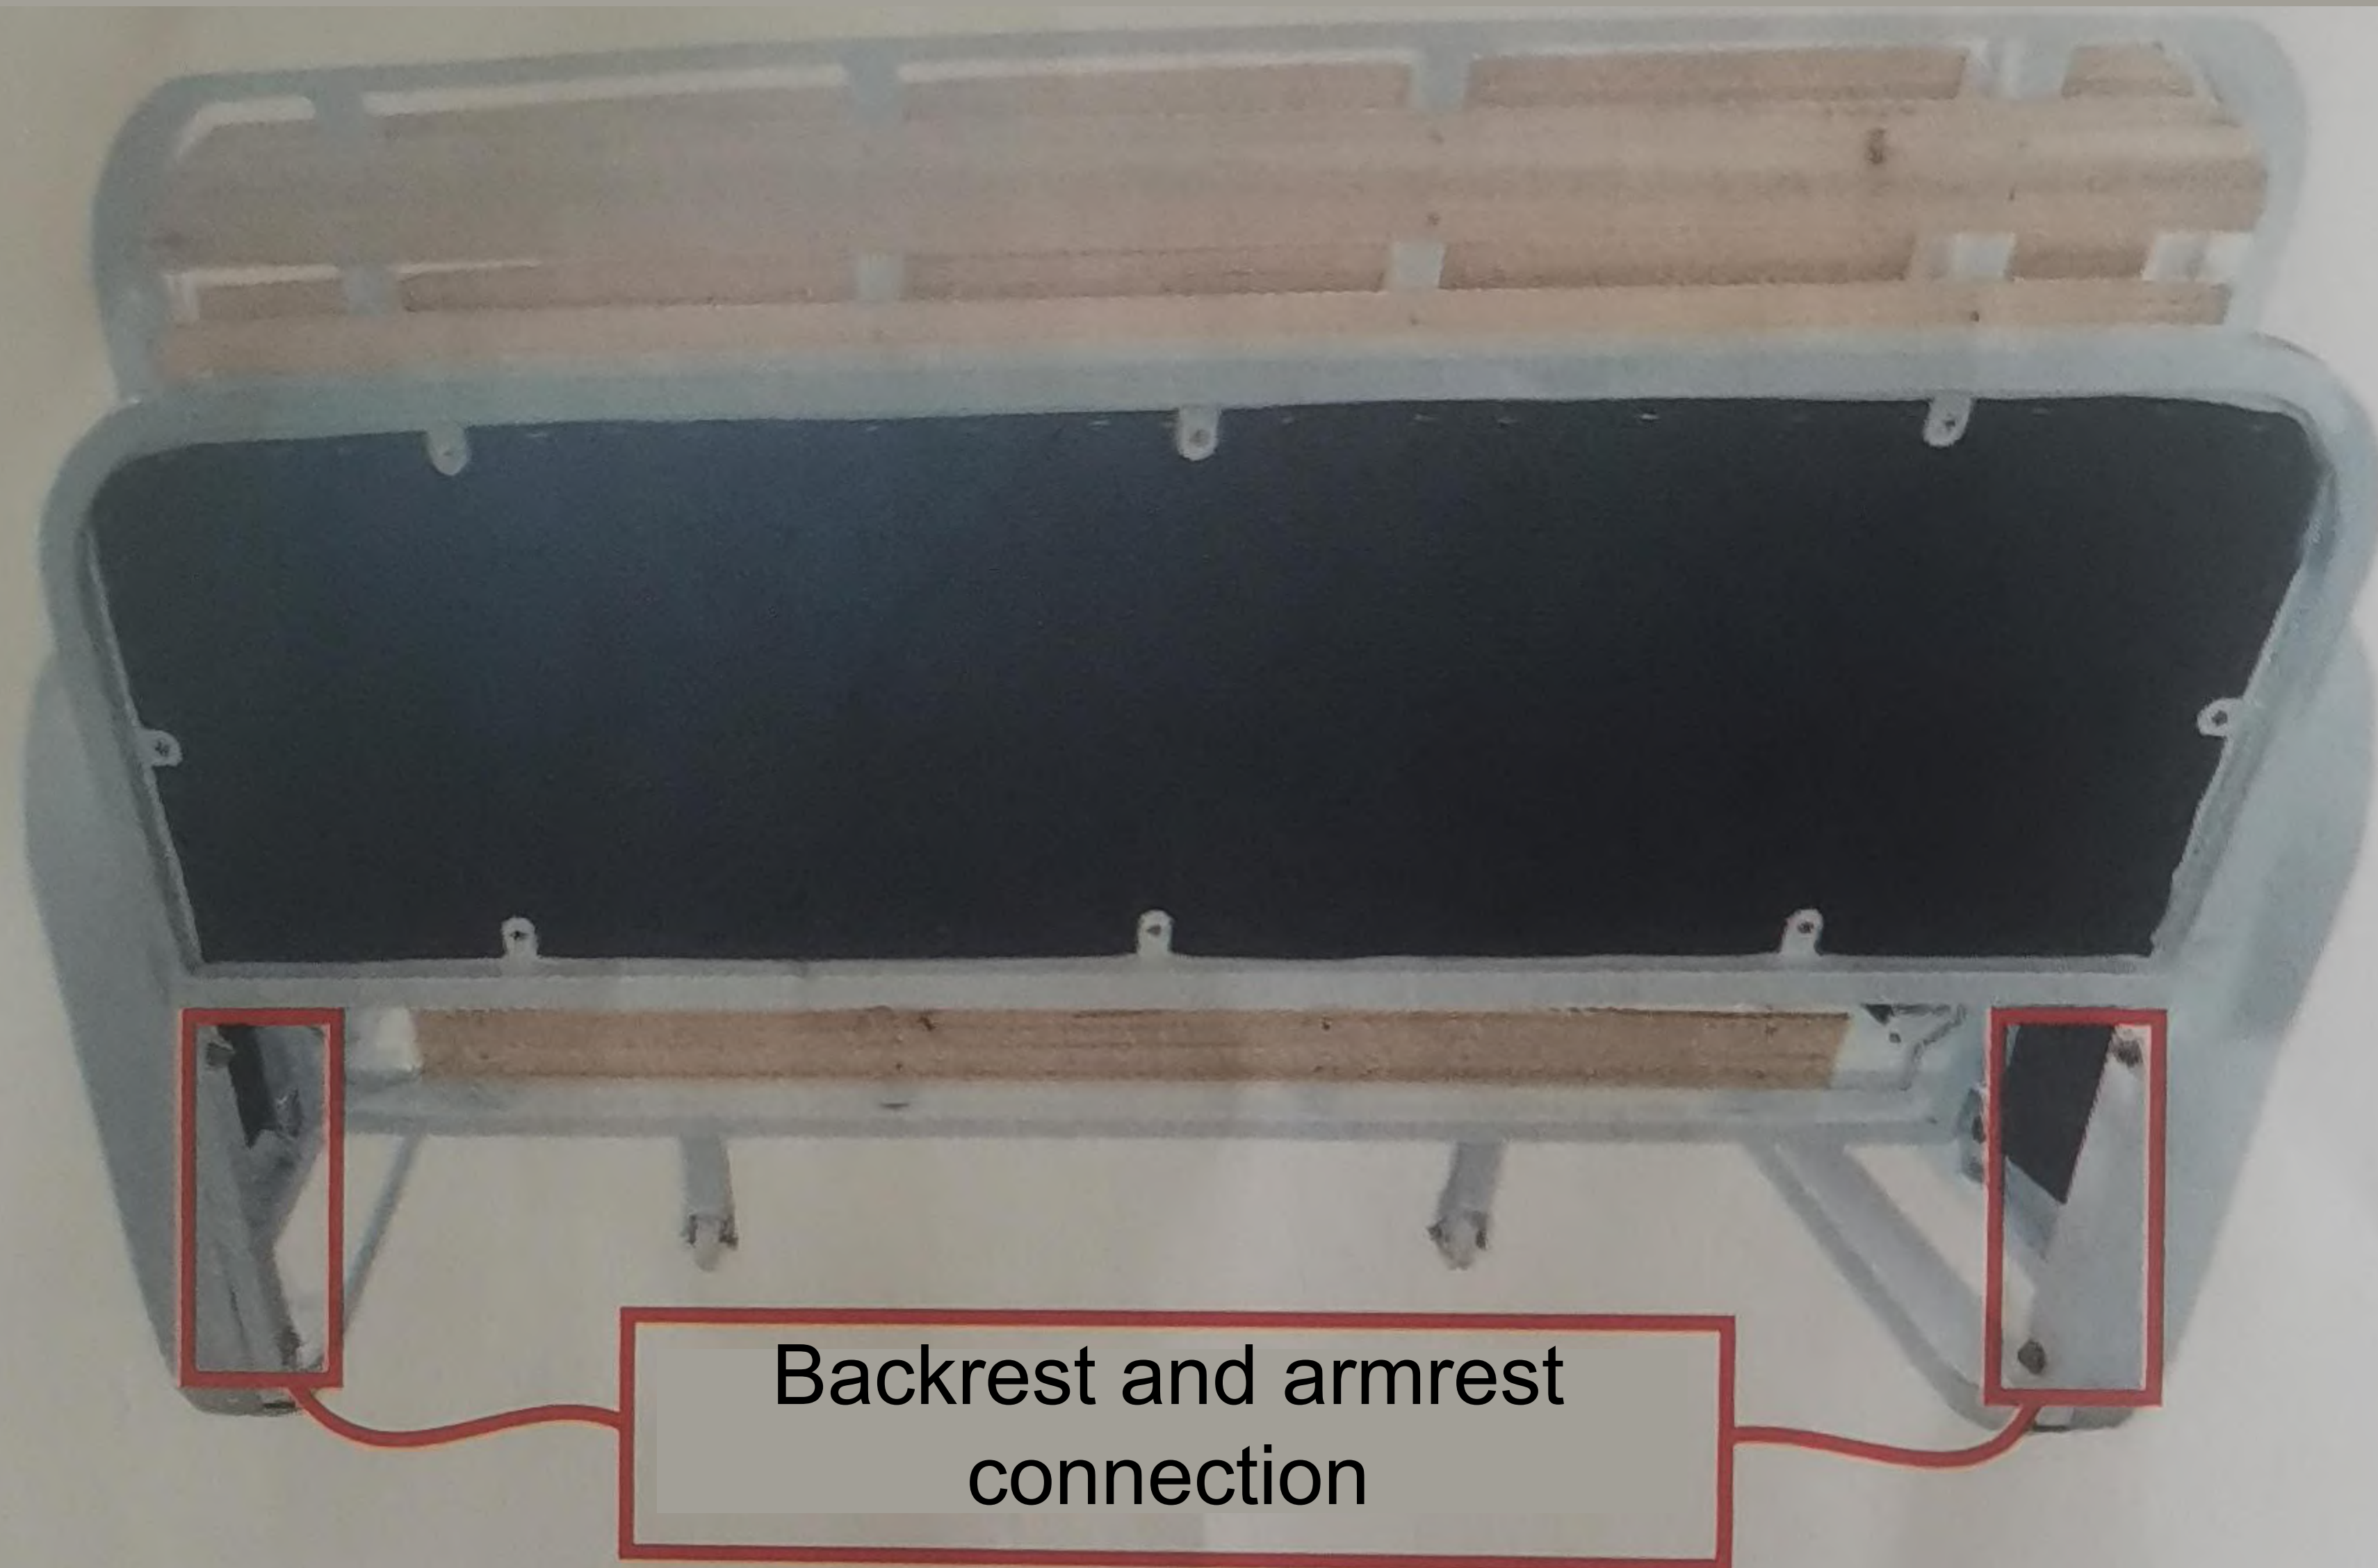

Step 2

Step 3

Use No. 4 screws to connect the backrest and armrest end, and then pay attention to adjust the screw tightness.

Step 4

The sofa bed bed frame unfolded, the sponge mattress laid on, note: small piece in front, and then the mattress on the reverse side of the four black straps are tied to the bed frame, is the complete bed shape.

- The position of the small piece

Use method

1, When convert the sofa bed into a sofa, first lift the front, note (lift the feet on the pulley from the ground to more than 25 centimeters) and then downward light pressure to push back.

The casters should be more than 25 cm from the ground

2, When convert the sofa into a bed, please lift the front of the sofa, note (raised when the pulley on the feet from the ground can not exceed 20 cm) pulled forward flat.

The casters cannot be more than 20cm from the ground

Caution

Before installation and use must first read the instructions, because the product is flexible and unique, if improper operation causes damage or consequences, the person is responsible for their own.

Thank you for your cooperation!
